Annual Saving Strokes Event Great Turnout - Great Day

The Annual Saving Strokes event was held Wednesday October 4th at the **Legacy Golf Club, Henderson**. As in the past years, the event was sponsored by the **American Heart Association** and **Encompass Health Rehabilitation Hospitals**.

The event brings together people who have been challenged by surviving stroke, head injuries and other health conditions. All are encouraged to try some of the basics of golfing, putting, chipping and driving range. The therapists from Encompass, Touro and PGA professionals and others were on hand to help assist anyone willing to try this effective and fun therapy.

All participants rotate through the three different activities of golf. It's nothing to do with competition or best score, it's all about the physical and mental aspects of the game which work as fun therapy. Everyone had a great time!

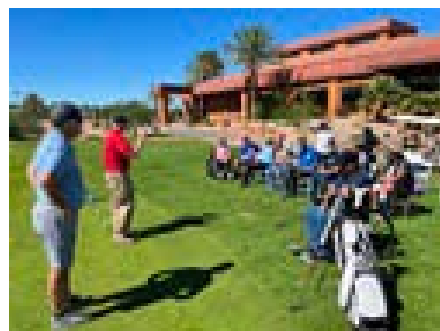

The event concludes with a free lunch for all participants in the club house.

I have participated in this event for many years and once again, I enjoyed helping people and the fun socialization.

Big "thank yous" to Encompass, AHA and the many volunteers to

make Saving Strokes a winner for all, again!

**Lee Brasted, Publisher
The Challenger**

Basic instruction for putting

Stretching and warm up to get started

Chipping to the hole

Driving Range time

**By the way,
the weather was perfect!**
