CONVENIENT. EASY. TIMELY.

As a healthcare provider, you want your patients to receive the best care possible. So, if you think a patient would benefit from an inpatient rehabilitation hospital stay, consider referring your patient for an Encompass home assessment.

Encompass's rehabilitation liaisons are available to complete an assessment in your office or in your patient's home. Assessments are completed for patients who have experienced a recent physical decline or other condition, including but not limited to:

- Amputation
- Arthritis
- Brain injury
- Compression fractures
- Guillan-Barre
- Hip fractures
- Muscle weakness
- Muscular dystrophy
- Multiple sclerosis
- Oncology
- Parkinson's disease
- Pediatrics/adolescents
- Pelvic fractures
- Polyneuropathy
- Post-polio
- Pulmonary disorders
- Spinal cord injury
- Stroke
- Systemic lupus

The in-house assessment is scheduled within 24 hours for prompt attention. Throughout the assessment and admission process, Encompass will remain in close communication with you.

MAKE A REFERRAL

To refer a patient for an assessment, please choose the hospital of your choice.
