

Nationally Recognized WITH AN "A" GRADE IN PATIENT SAFETY

The safety of our patients is the highest priority at Valley Hospital. For that reason, we are honored to receive an "A" grade in patient safety from The Leapfrog Group, an independent watchdog organization committed to healthcare quality and safety.

This national honor recognizes our commitment to protecting patients from errors, injuries, accidents and infections. This can mean more peace of mind when you or a loved one receives care at our hospital.
