## Regain Your Strength *(from front page)*

areas that may be affected by spinal injuries. Spinal rehab can benefit patients recovering from orthopedic surgery and those suffering from spinal cord injury, traumatic brain injury, disc degeneration, paralysis and paraplegia.

Therapies used in spinal rehabilitation include gait, stair and transfer training; relaxation techniques; postural education; postsurgical spinal precaution training, cryotherapy and adaptive equipment training.

### Orthopedic rehabilitation

Inpatient orthopedic rehabilitation treats patients who are recovering from injuries that affect the skeletal and muscular systems. Orthopedic rehab can benefit patients affected by arthritis, hip or knee replacement, sports injuries, tendonitis, whiplash and more.

### High Patient Satisfaction

In recognition of our dedication and comprehensive care, we have received a **4.9** customer ser-

vice rating on Google Reviews.

**To learn about our inpatient rehabilitation, call 702-777-7100 or visit [valleyhealthspecialty.com](http://valleyhealthspecialty.com).**
